

**Principles of Practice
for
Sustainable Development**

Doc. No.	<u>AO-GM-MR-022</u>
Version	<u>A-2</u>

 General Manager Office	Principles of Practice for Sustainable Development						No.	AO-GM-MR-022
	Prepared on	Jan. 19, 2018	Revised	Jan. 18, 2022	Version	A-2	Page	1 of 10

1. Purpose

In order to fulfill corporate social responsibility initiatives and to promote economic, environmental, and social advancement for purposes of sustainable development, the Company hereby promulgates the “**Principles**” to manage the economic, environmental and social risks and impact.

2. Scope of Application

The scope of the Principles include the entire operations of the company and our business group. The company shall actively practice sustainable development in the course of our business operations so as to follow international development trends and to contribute to the economic development of the country, to improve the quality of life of employees, the community and society by acting as responsible corporate citizens, and to enhance competitive edges built on sustainable development.

Unless otherwise stipulated by laws or regulations, shall be in accordance with the Principles. In case of any matters not covered in the Principles or subsequent changes in laws and regulations, shall be handled in accordance with the relevant laws and regulations in force.

3. Scope of responsibilities

In fulfilling sustainable development initiatives, the company shall, in the corporate management guidelines and business operations, give due consideration to the rights and interests of stakeholders and, while pursuing sustainable operations and profits, also give due consideration to the environment, society and corporate governance.

The company shall, in accordance with the materiality principle, conduct risk assessments of environmental, social and corporate governance issues pertaining to company operations and establish the relevant risk management policy or strategy.

3.1 To implement sustainable development initiatives, the company are advised to follow the Principles below:

3.1.1. Exercise corporate governance.

3.1.2. Foster a sustainable environment.

 General Manager Office	Principles of Practice for Sustainable Development						No.	AO-GM-MR-022
	Prepared on	Jan. 19, 2018	Revised	Jan. 18, 2022	Version	A-2	Page	2 of 10

3.1.3. Preserve public welfare.

3.1.4. Enhance disclosure of sustainable development information.

3.2 The company shall take into consideration the correlation between the development of domestic and international sustainable development principles and corporate core business operations, and the effect of the operation of individual companies and of their respective business groups as a whole on stakeholders, in establishing their policies, systems or relevant management guidelines, and the relevant performance of concrete promotion plans for sustainable development programs, which shall be reported to the board of directors, and adjusts the promotion strategy accordingly according to the situation.

4. Exercising Corporate Governance

4.1 The company follow the Corporate Governance Best Practice Principles for TWSE/GTSM Listed Companies, the Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies, and the Code of Ethical Conduct for TWSE/GTSM Listed Companies to establish effective corporate governance frameworks and relevant ethical standards so as to enhance corporate governance.

4.2 For the purpose of managing sustainable development initiatives, the company is advised to establish a governance structure to promote sustainable development, and establish an exclusively (or concurrently) dedicated unit to be in charge of proposing and enforcing the sustainable development policies, systems, or relevant management guidelines, and concrete promotional plans and to report on the same to the board of directors on a periodic basis.

4.3 The board of directors of the company shall exercise the due care of good administrators to urge the company to perform its sustainable development initiatives, examine the results of the implementation thereof from time to time and continually make adjustments so as to ensure the thorough implementation of its sustainable development policies.

The board of directors of the company shall give full consideration to the interests of stakeholders, including the following matters, in the company's performance of its

Airtac General Manager Office	Principles of Practice for Sustainable Development						No.	AO-GM-MR-022
	Prepared on	Jan. 19, 2018	Revised	Jan. 18, 2022	Version	A-2	Page	3 of 10

corporate social responsibility initiatives:

4.3.1 Identifying the company's sustainable development mission or vision, and declaring its sustainable development policy, systems or relevant management guidelines;

4.3.2 Making sustainable development the guiding principle of the company's operations and development, and ratifying concrete promotional plans for sustainable development initiatives; and

4.3.3 Enhancing the timeliness and accuracy of the disclosure of sustainable development information.

The board of directors shall appoint executive-level positions with responsibility for economic, environmental, and social issues resulting from the business operations of the company, and to report the status of the handling to the board of directors. The handling procedures and the responsible person for each relevant issue shall be concrete and clear.

The company should organize education and training on the implementation of sustainable development initiatives on a regular basis, including promotion of the matters prescribed in paragraph 2 of the preceding article.

4.4 The company shall adopt reasonable remuneration policies, to ensure that remuneration arrangements support the strategic aims of the organization, and align with the interests of stakeholders. It is advised that the employee performance evaluation system be combined with sustainable development policies, and that a clear and effective incentive and discipline system be established.

4.5 The company shall identify stakeholders of the company based on respect for the rights and interests of stakeholders, and establish a designated section for stakeholders on the company website; understand the reasonable expectations and demands of stakeholders through proper communication with them, and adequately respond to the important sustainable development issues which they are concerned about.

5. Fostering a Sustainable Environment

5.1 The company follow relevant environmental laws, regulations and international standards to properly protect the environment and shall endeavor to promote a sustainable environment when engaging in business operations and internal management.

- 5.2 The company endeavor to utilize energy more efficiently and use renewable materials which have a low impact on the environment to improve sustainability of natural resources.
- 5.3 The company establish proper environment management systems based on the characteristics of their industries. Such systems shall include the following tasks:
- 5.3.1. Collecting sufficient and up-to-date information to evaluate the impact of the company's business operations on the natural environment.
- 5.3.2. Establishing measurable goals for environmental sustainability, and examining whether the development of such goals should be maintained and whether it is still relevant on a regular basis.
- 5.3.3. Adopting enforcement measures such as concrete plans or action plans, and examining the results of their operation on a regular basis.
- 5.4 The company establish a dedicated unit or assign dedicated personnel for drafting, promoting, and maintaining relevant environment management systems and concrete action plans, and should hold environment education courses for their managerial officers and other employees on a periodic basis.
- 5.5 The company take into account the effect of business operations on ecological efficiency, promote and advocate the concept of sustainable consumption, and conduct research and development, procurement, production, operations, and services in accordance with the following principles to reduce the impact on the natural environment and human beings from their business operations:
- 5.5.1. Reduce resource and energy consumption of their products and services.
- 5.5.2. Reduce emission of pollutants, toxins and waste, and dispose of waste properly.
- 5.5.3. Improve recyclability and reusability of raw materials or products.
- 5.5.4. Maximize the sustainability of renewable resources.
- 5.5.5. Enhance the durability of products.
- 5.5.6. Improve efficiency of products and services.

5.6 To improve water use efficiency, the company properly and sustainably use water resources and establish relevant management measures.

The company shall construct and improve environmental protection treatment facilities to avoid polluting water, air and land, and use their best efforts to reduce adverse impact on human health and the environment by adopting the best practical pollution prevention and control measures.

5.7 The company assess the current and future potential risks and opportunities that climate change may present to enterprises and to adopt climate related measures, and adopt standards or guidelines generally used in Taiwan and abroad to enforce corporate greenhouse gas inventory and to make disclosures thereof, the scope of which shall include the following:

5.7.1. Direct greenhouse gas emissions: emissions from operations that are owned or controlled by the company.

5.7.2. Indirect greenhouse gas emissions: emissions resulting from the utilization of imported electricity, heating, or steam.

5.7.3 Other indirect emissions: emissions from company activities that are not indirect emissions from energy sources, but originate from other sources owned or controlled by the company.

The company compile statistics on greenhouse gas emissions, volume of water consumption and total weight of waste and to establish policies for energy conservation, carbon and greenhouse gas reduction, reduction of water consumption or management of other wastes. The companies' carbon reduction strategies should include obtaining carbon credits and be promoted accordingly to minimize the impact of their business operations on climate change.

6. Preserving Public Welfare

6.1 The company comply with relevant laws and regulations, and the International Bill of Human Rights, with respect to rights such as gender equality, the right to work, and prohibition of discrimination. The company adopt relevant management policies and

Airtac General Manager Office	Principles of Practice for Sustainable Development						No.	AO-GM-MR-022
	Prepared on	Jan. 19, 2018	Revised	Jan. 18, 2022	Version	A-2	Page	6 of 10

processes to fulfill its responsibility to protect human rights, shall adopt relevant management policies and processes, including:

6.1.1. Presenting a corporate policy or statement on human rights.

6.1.2. Evaluating the impact of the company's business operations and internal management on human rights, and adopting corresponding handling processes.

6.1.3. Reviewing on a regular basis the effectiveness of the corporate policy or statement on human rights.

6.1.4. In the event of any infringement of human rights, the company shall disclose the processes for handling of the matter with respect to the stakeholders involved.

The company comply with the internationally recognized human rights of labor, including the freedom of association, the right of collective bargaining, caring for vulnerable groups, prohibiting the use of child labor, eliminating all forms of forced labor, eliminating recruitment and employment discrimination, and shall ensure that their human resource policies do not contain differential treatments based on gender, race, socioeconomic status, age, or marital and family status, so as to achieve equality and fairness in employment, hiring conditions, remuneration, benefits, training, evaluation, and promotion opportunities.

The company provide an effective and appropriate grievance mechanism with respect to matters adversely impacting the rights and interests of the labor force, in order to ensure equality and transparency of the grievance process. Channels through which a grievance may be raised shall be clear, convenient, and unobstructed. A company shall respond to any employee's grievance in an appropriate manner.

6.2 The company provide information for their employees so that the employees have knowledge of the labor laws and the rights they enjoy in the countries where the companies have business operations.

6.3 The company provide safe and healthful work environments for their employees, including necessary health and first-aid facilities and shall endeavor to curb dangers to employees' safety and health and to prevent occupational accidents.

	Prepared on	Jan. 19, 2018	Revised	Jan. 18, 2022	Version	A-2	Page	8 of 10

6.8 The company assess the impact their procurement has on society as well as the environment of the community that they are procuring from, and shall cooperate with their suppliers to jointly implement the corporate social responsibility initiative.

The company establish supplier management policies and request suppliers to comply with rules governing issues such as environmental protection, occupational safety and health or labor rights. Prior to engaging in commercial dealings, The company assess whether there is any record of a supplier's impact on the environment and society, and avoid conducting transactions with those against corporate social responsibility policy.

When the company enter into a contract with any of their major suppliers, the content should include terms stipulating mutual compliance with corporate social responsibility policy, and that the contract may be terminated or rescinded any time if the supplier has violated such policy and has caused significant negative impact on the environment and society of the community of the supply source.

6.9 The company evaluate the impact of their business operations on the community, and adequately employ personnel from the location of the business operations, to enhance community acceptance.

The company through equity investment, commercial activities, endowments, volunteering service or other charitable professional services etc., dedicate resources to organizations that commercially resolve social or environmental issues, participate in events held by citizen organizations, charities and local government agencies relating to community development and community education to promote community development.

6.10 The company treat customers or consumers of its products or services in a fair and reasonable manner, including according to the following principles: fairness and good faith in contracting, duty of care and fiduciary duty, truthfulness in advertising and soliciting, fitness of products or services, notification and disclosure, commensuration between compensation and performance, protection of the right to complain, professionalism of salespersons etc. Said company shall also develop the relevant strategies and specific measures for implementation.

6.11 The company shall take responsibility for their products and services, and take marketing ethics seriously. In the process of research and development, procurement, production,

 General Manager Office	Principles of Practice for Sustainable Development						No.	AO-GM-MR-022

operations, and services, the company shall ensure the transparency and safety of their products and services. They further shall establish and disclose policies on consumer rights and interests, and enforce them in the course of business operations, in order to prevent the products or services from adversely impacting the rights, interests, health, or safety of consumers.

7. Enhancing Disclosure of Sustainable Development Information

7.1 The company disclose information according to relevant laws, regulations and the Corporate Governance Best Practice Principles for TWSE/GTSM listed Companies and shall fully disclose relevant and reliable information relating to their sustainable development initiatives to improve information transparency.

Relevant information relating to sustainable development which disclose includes:

7.1.1. The policy, systems or relevant management guidelines, and concrete promotion plans for sustainable development initiatives, as resolved by the board of directors.

7.1.2. The risks and the impact on the corporate operations and financial condition arising from exercising corporate governance, fostering a sustainable environment and preserving social public welfare.

7.1.3. Goals and measures for realizing the sustainable development initiatives established by the companies, and performance in implementation.

7.1.4. Major stakeholders and their concerns.

7.1.5. Disclosure of information on major suppliers' management and performance with respect to major environmental and social issues.

7.1.6. Other information relating to sustainable development initiatives.

7.2 The company adopt internationally widely recognized standards or guidelines when producing sustainable development reports, to disclose the status of their implementation of the sustainable development policy. It also is advisable to obtain a third-party assurance or verification for reports to enhance the reliability of the information in the reports. The reports are advised to include:

7.2.1. The policy, system, or relevant management guidelines and concrete promotion plans for implementing sustainable development initiatives.

7.2.2. Major stakeholders and their concerns.

Airtac General Manager Office	Principles of Practice for Sustainable Development						No.	AO-GM-MR-022
	Prepared on	Jan. 19, 2018	Revised	Jan. 18, 2022	Version	A-2	Page	10 of 10

7.2.3. Results and a review of the exercising of corporate governance, fostering of a sustainable environment, preservation of public welfare and promotion of economic development.

7.2.4. Future improvements and goals.

8. Supplementary Provisions

The company at all times monitor the development of domestic and foreign sustainable development standards and the change of business environment so as to examine and improve their established sustainable development framework and to obtain better results from the promotion of the sustainable development policy.

9. Implement

The Principles shall be implemented and amended after the board of directors grants the approval.
